To Whom It May Concern:

The Bloom-Vernon Local School District recently implemented a House Bill 264 energy efficiency project with Energy Optimizers, USA.

The project included interior and exterior lighting retrofits, real time metering with an energy dashboard with demand limiting, and kitchen walk-in temperature controls. Energy Optimizers, USA has guaranteed the district will see a reduction in energy costs of at least \$48,000 per year. Their team has worked closely with our staff throughout the entire project, and we are very pleased with the results.

I highly recommend Energy Optimizers, USA as a provider of energy efficiency services, including LED lighting retrofits.

If you would like additional information about the company's work in the district, please contact me.

Very truly yours,

Ty Roberts  
Treasurer
