

Ohio Public Facilities Maintenance Association

OPFMA is a non-profit 501(c)(3) private educational organization serving Ohio since 1987

12/17/2017

To: Ohio Council of Educational Purchasing Consortia

Subject: Letter of support for Energy Optimizers, USA

We have been asked to write a letter of support for Energy Optimizers, USA, to include with their response to the OCEPC LED Lighting and Energy Savings Program.

It's our pleasure and an easy task to provide a letter of recommendation for a reliable company with the most high integrity (*rare qualities these days*) that cheerfully goes the extra mile to satisfy the customer!

Energy Optimizers, USA has been active with the Ohio Public Maintenance Facilities Association since 2009. The Energy Optimizers, USA team provides high-quality educational seminars for OPFMA as well as workshops at our conferences, supports the annual Vendor Tradeshow, and writes educational articles for the OPFMA quarterly newsletter.

In addition, Belinda Kenley, Vice President of Energy Optimizers, USA, has been a leader in starting a Dayton Chapter of OPFMA, as a forum for facility and maintenance professionals to network, share best practices, and learn of the latest in technology and services from various vendors. The company provides lunch for our members at no charge, organizes the meeting agenda, and promotes chapter activities to a wide network.

We believe that the services that Energy Optimizers, USA provides to those who work in Ohio's public facilities are very important. We highly recommend Energy Optimizers, USA whose reputation with our members is impeccable after nine years of service!

Regards,

Alexandra Schneider
