

Healthy Buildings, Healthy Schools

Germicidal UV-C Light maintains a healthy indoor environment by preventing the spread of airborne infectious diseases, mold, and other pathogens.

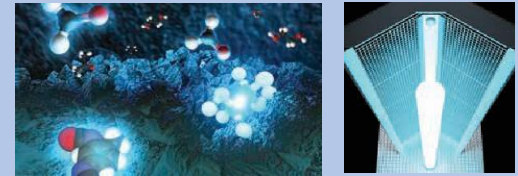

UV light has been proven to kill 90% of microbial contaminants after 10 min. of exposure and 99% after 1 hr.

Benefits of UV-C Light HVAC Disinfection:

- Keeps coil free of mold & microbial growth – No more coil cleaning!
- Extends life of HVAC system
- Improved Indoor Air Quality
- Energy savings & reduced maintenance costs
- Neutralize odors & toxic VOCs (APCO)
- Chemical-free disinfection
- No harmful ozone

UV-C light keeps coils free of mold

Blue-Tube XL

- Chemical-free coil disinfection
- Kit includes everything needed for installation
- Multi-lamp configurations for coils of any size
- 2 year, Teflon® coated UV-C Lamps 18", 32", 40", 48", 72"
- LIFETIME warranty for all parts except lamp
- Magnet mounts for simple installation

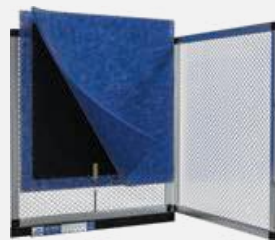

APCO® Technology

- Coil disinfection & odor/VOC control
- APCO-X for duct-mount applications
- APCO Mag for internal mount & RTPU's
- Neutralize gas phase contaminants
- UL validated ozone-free
- LIFETIME self-cleaning carbon cells

Purity Low Profile

- Electronic air cleaner replaces 1" filter
- Captures 97% of > .3 microns (.00001 inch)
- Low Static Pressure saves energy

Ice UV

- Effective against mold, bacteria & viruses
- Reduces health risks & liability
- Continuous Ice Machines Cleaning
- Big Savings on Cleaning & Maintenance

Mini UV LED

- Sterilizes Mold on mini-split blower
- 5-year UV LEDs
- Easy to install adhesive strip safe for eyes & plastic parts

Tight Fit Kit

- Coil Disinfection for PTAC's & Fan Coils
- Low Profile UVC with Magnet Mount

Healthy Buildings, Healthy Schools

Cleansing Retrofits

- Available in Recessed Lights & Troffers
- Sanitizes and inactivates contaminants

UV Disinfection from Above

- Installed in the Ceiling
- Halo Fixtures disinfect in one cycle

Cleanse Tote and Cabinet

- Sanitize Personal Belongings
- Sanitize widely used objects
- 3-5-minute process

Portable UV Disinfection

- Easy Positioning
- Simple Control
- Eliminates 99.9% of bacteria, fungi, and viruses

PPE

- IIR & KN95 Masks
- MS-IT122G2 Thermometers
- Gloves, etc.

GPS – iMOD

- Customizable Sizing
- Ozone Free
- Full Depth Coil Cleaning

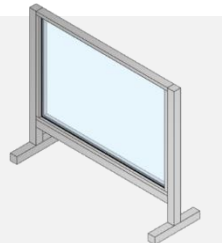

Floor Signage - Kit

- Quantity:
6 Stickers
1 Paper Sign Holder
1 Social Distancing Insert
- Size: 6" and 12" Diameter
- Material: PVC Vinyl
- Installation: Peel and Stick; Sign slides on Belt Stanchion top

Sneeze Guard

- Designed to easily mount on office countertops and desks
- Counter-Top Model: 40" x 34"
- Desktop Model: 52" x 46" or 64" x 46"

Backpack Sanitizing Sprayer

- Atomizer Sprayer for Sterilization
- 15 mL Capacity
- Uniform Droplet - 25-50 microns
- Long spray range

Botanical Disinfectant Solution

- EPA Registered Broad-Spectrum Disinfectant
- Sanitizes soft surfaces in just 2 minutes
- Safe for everyday use
- Ready-to-use Formula
